Hi All,

Everyone has probably heard about this, but Cape Coral finally made it official and updated their web site. Note that because of the drought, watering has been reduced to once per week. New schedule and web link below.

We have heard a few stories of people getting turned in and nasty grams already. The city can fine you for non-compliance so please make sure your system is updated.

Enjoy the rest of this beautiful weekend.

BELOW IS THE ONE-DAY A WEEK WATERING SCHEDULE
