

Hi All,

We had our monthly board meeting via Zoom Wednesday evening. Susanne Schramm, our Treasurer reports that 76 members have renewed for 2021. That's good, but we would really like to do better. If you haven't yet renewed, please do so today. At only \$25, it's a great deal that helps fund our association's work around our community as well as events that will resume when we get through Covid.

Speaking of which, as promised, we have reviewed the happy hour options relative to Covid and have postponed any events for this month. We will review each month with the goal of resuming these awesome events as soon as it is safe to do so. The good news is that we have reports of neighbors already getting vaccines, so hopefully, it won't be too much longer.

Thanks to everyone who voted for our by-law change. Remember, that all paid members have until 1/19 to vote. I will report the results of that vote on Monday and then we will have another vote relative to GCEA officers. More info on that on Monday.

The other great news is that the ugly work boat that has been anchored offshore from GCEA for over 14 months has moved. We don't know the details but it left for about a day and returned, but is now anchored much further out and further upriver from GCEA. You have to look for it now, which is great news that the eyesore we all had to ensure for so long is gone. Let's hope it leaves or stays where it is.

I hope everyone has a great week-end!

Kurt Godwin
President
Gold Coast Estates Association
